APPLICATION

SUBJECT

ITEM

Switching charges named herein (unless otherwise specified) will apply for the handling of loaded cars one direction and empty cars in the reverse direction. If cars are moved empty in both directions, then charges for a one-way movement will apply. If cars are moved empty in one direction and are not returned, they will be charged as if they were loaded and switching of other cars loaded will not be considered as offsetting one-way movement of empty cars. If cars are loaded in both directions, the applicable charge will be assessed for each loaded movement.

DEFINITIONS

- (a) Intra-Plant Switching - A switching movement of cars, loaded or empty, from one track to another track or between two points on the same track, within the same plant or industry without leaving the tracks of the same plant or industry.
- (b) Intra-Terminal Switching - A switching movement (other than intra-plant switching) from one track to another track of the same carrier, within the switching limits of one station or industrial switching district.
- (c) Inter-Terminal Switching - A switching movement from a track of one carrier to a track of another carrier when both tracks and movement are within the switching limits of the same station or industrial switching district.
- (d) Reciprocal Switching - A switching movement from a plant or industry located on the AGR to the point of interchange with connecting carriers or vice versa, on line haul traffic.
- (e) Intermediate Switching – A switching movement of cars from the interchange tracks of one connecting carrier to the interchange tracks of another connecting carrier within the switching limits of the same station on which the switch carrier neither originates nor terminates the shipment nor receives a line-haul. Empty car movements as defined above, that move between AGR stations to and from connecting carriers will also apply.

APPLICATION
AND DEFINITIONS

130(R)

A shop facility is one approved by the AAR for rail car repair sufficient to meet interchange standards.

DEFINITION OF
SHOP FACILITY

<p>The intra-plant switching charges provided in this tariff will not apply when a car is moved back to the same location on the same track or to a different location on the same track for Railroad convenience (See NOTE). Such movement must occur as a result of pulling outbound carloads or empties previously unloaded, or placing inbound carloads for unloading or empties for loading.</p> <p>NOTE-Movement to a different location on the same track must be incidental to, and necessary in connection with the removal or placement of other loaded or empty cars.</p>	NON-APPLICATION OF INTRA-PLANT SWITCHING CHARGES	140
<p style="text-align: center;">(Unless otherwise specifically provided, the following will apply)</p> <p>When on shipper's order loaded cars, or empty cars moving on own wheels at tariff rates, are removed from industry or team tracks and are held by carrier awaiting forwarding instructions, a holding charge of \$81.00 per car will be assessed against the party physically loading the car and in whose name demurrage is maintained by this railroad. If cars are subsequently ordered returned to loader's tracks, the applicable intra-terminal switching charge will be assessed against loader.</p> <p>When loaded cars, or empty cars moving on own wheels at tariff rates, are received from a connecting carrier and are held awaiting forwarding instructions, a holding charge of \$81.00 per car will be assessed against the party responsible for furnishing the forwarding instructions. If cars are subsequently ordered returned to a connecting carrier, the applicable inter-terminal switching charges will be assessed from and to the interchange with the connecting carrier, and will be in addition to the holding charge.</p> <p>The charges provided in this item are in addition to applicable demurrage, storage, diversion, and re-consignment charges named in this tariff, where applicable, and will not be absorbed in whole or in part.</p> <p>NOTE-Nothing in this item will be construed as authorization to charge any connecting carrier for railroad error moves.</p>	SWITCHING AND HOLDING CHARGES ON CARS HELD FOR INSTRUCTIONS	145(A)

Empty cars will be switched from AGR storage or yard tracks or connections with other lines to cleaning tracks served by the AGR, and will then be switched from such cleaning tracks subject to the following:

- (a) If switched empty direct to loading tracks and loaded for AGR road-haul, no charge will be made for switching to and from cleaning tracks.
- (b) If switched empty from cleaning track to BNSF storage track and then switched to loading track and loaded for:
 - (1) AGR line-haul, a charge of \$56.00 per car.
 - (2) Connecting carrier line-haul, a charge of \$109.00 per car will be made.
 - (3) Inter-terminal, intra-terminal or intra-plant switch, a charge of \$54.00 per car will be made, in addition to the published inter-terminal, intra-terminal or intra-plant switch provided for in this tariff.
- (c) If switched empty from cleaning track to connection with other line, a charge equivalent to that provided under reciprocal of this tariff for industry involved, will be against the party ordering the move from the cleaning track.
- (d) If switched empty from cleaning track to AGR storage track and then switched empty from AGR storage track to connection with other line, a charge of \$109.00 per car will be assessed for the move from the cleaning track to the storage track, such charge to be assessed against the party ordering such move, and in addition a charge equivalent to that provided under reciprocal of this tariff for the industry involved will be assessed for the move from AGR storage track to connections with other line, such charge to be assessed against the party ordering the move.
- (e) If switched empty from cleaning tracks to loading or other industry track, and then switched empty from such loading or other industry track to connection with other line, an intra-terminal switch charge in addition to a charge equivalent to that provided under reciprocal of this tariff for the industry involved will be assessed, such charge to be assessed against the party ordering the move from the loading or other industry track.
- (f) If cars are switched from cleaning track to loading track for outbound movements on connecting lines, a charge of \$56.00 per car will be made.
- (g) If cars are switched from one cleaning track to another cleaning track or industry's storage track, a charge of \$109.00 per car will be made.

Except as otherwise provided and upon specific request of the shipper or consignee, carloads may be handled in special or non-scheduled (not regular) service. The charge for this special service when requiring the assignment of an additional crew will be, NOTE (A): \$15,000.00 for up to eight (8) hours for line haul movement or switch movements as defined in Item 130 and \$2,072.00 per hour or fraction thereof for each additional hour not to exceed twelve (12) hours and AGR's liability coverage will not exceed \$1,000.00 per car.; and NOTE (B): \$2,136.00 for up to eight (8) hours for switch movements as defined in Item 130 and \$268.00 per hour or fraction thereof for each additional hour not to exceed twelve (12) hours.

The special service charge as shown herein for each crew used, will be in addition to any applicable switching charges. Charges will be assessed against the party requesting the service.

NOTE 1-Special (not regular) service is defined as:

(A) Service accorded shipments which cannot be handled in regular train operations because of excess weight, height, width or length and which necessitates handling in a special train.

OR

(B) By specific instructions by the consignor or consignee on cars that can be physically handled in regular train service.

SECTION 1

ITEM

Hazardous Commodity

The shipper of any hazardous commodity shipped via Railroad shall indemnify Railroad and hold Railroad harmless for any and all loss, liability or cost whatsoever that Railroad may incur or be held responsible for, to the extent that such liability is due to, or arising from, defects in or failure of shipper's cars and equipment, due to shipper's failure to conduct proper or appropriate pre-shipment inspection of the cars as described in 49 CFR Sec. 173.31 (b) or mis-identification of commodity shipped.

The foregoing indemnification shall not apply to any loss or liability caused by or due to Railroad's failure to conduct pre-departure inspections as described in 49 CFR Sec. 174(A) or failure to follow AAR interchange rules, or any other liability resulting from Railroad's negligence.

After the expiration of any free time allowed, or without free time allowance where none is provided, the following charges will apply per day of twenty-four (24) hours, or fraction thereof, until removal from Railroad premises:

- A. Class A-Explosives:
 - 1.- \$110.00 per car per day, will apply on cars held on Railroad premises.
- B. Class B and C- Explosives:
 - 1.- \$110.00 per car per day, will apply on cars held on Railroad premises.
- C. Hazardous Materials, Substances, Wastes, Other Than Explosives.
 - 1. \$110.00 per car per day, will apply on cars held on Railroad premises.

The above provisions apply to shipments of classes A, B or C explosives, as named in Part 172 Commodity List of Tariff BOE 6000-Series, hazardous materials, substances or wastes requiring the use of a 4-digit identification number on shipping papers, placards or panels, as named in Part 11, Section 172.101 of Tariff BOE 6000-Series, while held on railroad premises.
- D. Empty Railcars Formerly Containing Hazardous Materials or Explosives
 - 1. \$110.00 per car per day will apply to the Customer (defined for the purpose of this subsection as the consignee of the empty railcar) for each empty tank car and privately marked covered hopper, if the railcar's prior movement contained any of the items referenced in A., B. or C. above.

ABSORPTION OF SWITCHING CHARGES		
APPLICATION	SUBJECT	ITEM
The absorbed switching charge applicable, whether absorbed in whole or in part, will be the charge in effect on the date of the actual physical interchange of the loaded car. (Provisions of this item apply to absorbed switching charges on either transit or non-transit shipments).	ABSORBED SWITCHING CHARGES ON EITHER TRANSIT OR NON-TRANSIT SHIPMENT	2000
Connecting line switching charges will not be absorbed when rates or provisions published in tariffs, rate books or like publications, specifically state such rates or provisions will not include switching charges of connecting lines.	SWITCHING CHARGES NOT ABSORBED	2005
The AGR will not absorb switching charges on empty railway cars moving on their own wheels. AGR will not absorb nor be responsible for collection of connecting line switching charges on empty private cars from or to a bona fide shop facility for non-discretionary cleaning, lining, relining, maintenance, modification or repair when AGR line-haul service is provided free of charge.	NON-ABSORPTION OF SWITCHING CHARGES ON EMPTY CARS	2010
On shipments moving on combination of water/rail or rail/water rates when interchanged BETWEEN rail carriers AND rail-car barge operators, the rail carriers will not absorb published switching charges from or to interchange tracks and water facility nor gridiron charges at the water facility. SECTION 3

GENERAL CAR DEMURRAGE RULES AND CHARGES

APPLICATION

SUBJECT

ITEM

For the purpose of applying provisions of this tariff, the following are defined and will govern:

ACTUAL PLACEMENT: When a car is placed in an accessible position for loading and unloading, or at a point designated by the consignor or consignee or party loading or unloading the car.

APPROPRIATE: To commence the loading, use or control of a car without benefit of a car order.

ASSIGNED CARS: The assignment of cars to a given shipper at a specific location as defined in Car Service Rule 16 and Car Hire Rule 22.

CHARGEABLE DAY: A twenty-four (24) hour period, or fraction thereof.

CONSIGNEE: The party designated on the bill of lading as the entity entitled to receive delivery of the goods from the carrier.

CONSIGNOR: The party designated on the bill of lading as the entity, which has caused the goods to be consigned into transportation.

CONSTRUCTIVE PLACEMENT: When a car, including order notify and in-bond shipments, cannot be actually placed because of any condition attributable to the loader or unloader, such car will be held on AGR tracks and notice will be given to the loader or unloader, that the car is held awaiting disposition instructions. Such cars which have been placed by AGR on private or other than public delivery tracks, including lead tracks serving the loader or unloader, will be considered constructively placed without notice.

CREDIT: A non-chargeable demurrage day. A maximum of 1 excess credit is to be applied per car per movement. An excess credit is when the car is placed for loading or unloading and is loaded or unloaded on or before 11:59 P.M. of the day the car is placed.

DEBIT: A chargeable demurrage day.

DEMURRAGE DAY: A twenty-four (24) hour period, or fraction thereof.

DISPOSITION: Information, including forwarding instructions or release, which allows the railroad to either tender or release the car from the consignor's or consignee's account.

GENERAL CAR DEMURRAGE RULES AND CHARGES

APPLICATION	SUBJECT	ITEM
<p>A. Settlement of charges will be made on a monthly basis on all cars released during each calendar month, except non-credit customers. See Item 3045 for settlement of charges for non-credit customers. The rate in effect on the release date will be used to calculate charges for all demurrage days.</p> <p>B. Credits earned and demurrage days accrued by customers having facilities at separate stations cannot be combined, nor can credits/debits for inbound loads be applied for outbound loads.</p> <p>C. Credits earned and/or chargeable demurrage days accrued will be calculated separately for the following transactions:</p> <ol style="list-style-type: none"> 1. Cars held for complete loading (see Item 3015 and Table 1 in Item 3050). 2. Cars held for complete or partial unloading (see Item 3020 and Table 2 in Item 3050). 3. Cars held for purposes other than loading and unloading (see Item 3025 and Table 3 in Item 3050). 4. Loaded private cars held on railroad tracks (see Item 3030 and Table 4 in Item 3050). 5. Refused loaded cars and cars rejected as being unsuitable for loading (see Item 3035 and Table 5 in Item 3050). <p>D. Excess credits on one type of transaction cannot be used to offset demurrage days on another type of transaction, or for a different calendar month.</p> <p>E.
