A RailAmerica Company

### Freight Tariff KRR 9002-A

#### NAMING FUEL SURCHARGES ON LOCAL TRAFFIC FOR THE KIAMICHI RAILROAD COMPANY

**APPLICATION:** This publication applies to all KRR originated traffic for all commodities.

In the event that the monthly average price per gallon of highway diesel fuel (as determined below, the “HDF Average Price”) equals or exceeds 233.0 cents, KRR will apply a mileage-based fuel surcharge to the line haul rates and charges described above. The fuel surcharge will be applied to each qualifying shipment having a bill of lading or other shipping instruction dated on or after the first day of the second calendar month following the calendar month of a given HDP Average Price determination (e.g. a fuel surcharge applied beginning August 1 would be based on June’s HDF average price).

The “HDF Average Price” for a month will be the average price for that month of U.S. No.2 Diesel Retail Sales by All Sellers, as determined and published by the U.S. Department of Energy, Energy Information Administration (“DOE-EIA”). This can be found at [www.eia.doe.gov](http://www.eia.doe.gov). That average price will, in calculating the HDF Average Price, be rounded to the nearest 1/10<sup>th</sup> of a cent applying conventional rounding principles. The fuel surcharge will be applied according to the attached schedule, by which the HDF Average Price for the calendar months, two months prior to the calendar month of shipments exceeds 200.9 cents.

If DOE-EIA ceases publication of the above information, KRR will employ a suitable substitute source of price or measure.

The mileage to be applied in calculating the fuel surcharge will be based on PC\*Miler Rail from ALK Technologies. If interline routing is involved, mileages will be calculated via the revenue route junctions(s) of the price used to rate the shipment.

The following table reflects a sampling of the fuel surcharge within the included HDP Average Price ranges. The cents per mile will be rounded off to the nearest cent, and then multiplied by the amount of miles to obtain the mileage portion.

Fuel surcharge prices for each month will be posted at [www.railamerica.com](http://www.railamerica.com).

1 The referenced DOE-EIA publication can currently be found at [www.eia.doe.gov](http://www.eia.doe.gov)

Should the cost of fuel increase beyond the above matrix, the increase will be \$.01 per mile for each \$.04 increase in the HDF fuel price index.

ISSUED: June 7, 2011

EFFECTIVE: August 1, 2011cw
